FIRE PRECAUTIONS

In this issue of the Review the Mayor has a notice drawing the attention of the citizens to the very important matter of paying strict attention to guarding against the possibility of serious conflagrations from the careless settling of prairie fires. In several issues in the past month we have drawn this to the attention of our readers but the matter is of so great importance that we cannot refrain from again reminding you of it.

The town council is doing its share when it so wisely authorized the plowing of fire guards around the town. This will protect the town as a whole but there is just as great a danger of a fire starting within the fire guards and doing great damage before it could be got under control. At present there are a number of vacant lots within the town limits and those of them that are not under cultivation are producing a heavy growth of grass and weeds. Just the thing to furnish fuel for a prairie fire if it once got started. Not only, therefore, is it wise for those in town to take extra precaution in the use of matches, cigars, cigarettes, stoves, kerosene fires, etc., but they should also give a little thought to fire guards around their private property.

We would also remind our readers that there is a heavy penalty imposed on those who start fires without first taking the necessary precaution of furnishing the necessary equipment which can keep them well under control.

FIGHT OUR OWN BATTLES

If it were not so silly it would indeed be amusing to hear some of these arm chair patriots talking about what they would do if they were Kitchener, or if they were Lloyd George, or if they were the president of the United States. So far as the British statesmen above mentioned are concerned all but the arm chair gents are content to leave the whole affair in their hands, feeling satisfied they will do the best for the Empire but when it comes to the part the United States is playing in this war it is different. The arm chair element who haven't the sand to get out and fight for their country, would like to shift their responsibility onto some one else's shoulders and because of this they would like to see our friends to the south get into the scrap. The amusing part of it is that when these arm chair gents are talking so much about getting the United States into the scrap leading British statesmen are taking advantage of every opportunity to say that they do not want them into it. According to British press reports these men figure that the United States can render more valuable service to the Empire by remaining as the arm and thus furnishing the Allies with the necessary sinews of war.

Apart from this, of what assistance could the United States navy be if it were ten times as strong? The British navy is keeping the channels of commerce open in the seven seas while the German navy is bottled up in the Kiel canal. Then what good could an American army do at the present time British and her Allies have thousands of men ready and waiting to get into the firing line. It is a case of "nothing doing." No British subject who

has the welfare of the Empire at heart wants to see the United States get into this fight. That country has gained a great victory over Germany already by the manner in which she has emerged from the Lusitania and Arabic enquiry, and that without a blow having been struck on their part. That is all British' wants. She wants a country with the power and influence of the United States to stand out as a referee and say that there is no lifting below the belt.

With that assurance and with a country like the United States as referee, a country of the same tongue, the same ideals, the same traditions—British and her Allies can come out of this conflict with flying colors.

President Wilson has a problem on his hands bigger than any since Lincoln faced the question, the solution of which paved the way for the war in which the Americans fought their own flesh and blood. That country has given substantial proof of its courage in times past and now today thousands of her sons are fighting under the British flag as recruits from Canada.

No this is the war of Britain and her Allies, and until she has sacrificed her last man and her last dollar in defence of the principles for which she is fighting she nor none of her subjects have any right to try to drag the American government into this conflict.

ANOTHER OPPORTUNITY

The announcement of the opening of a Concrete Post Company in Winnipeg suggests the advisability of starting some such plant here. These concrete posts are being made for the purpose of taking the place of cedar or other fence posts which have been used in the erection of fences for years. The gradual rise in the price of cedar posts has made them a rather expensive commodity and it is said that these cement posts can be supplied much more cheaply than the wooden ones.

It will only be a matter of a short time till fencing on a large scale will be absolutely necessary in this district and in fact all through Alberta. If cement posts can be manufactured more cheaply than wooden posts can be supplied and since they last for an indefinite period, there will no doubt be a big demand for them.

Redcliff has all kinds of cheap power. We have all kinds of sand and gravel and will in a short time be very convenient to one of the biggest cement plants in Canada. Why not then have a cement post factory in Redcliff to supply the Alberta demand. There is already one in Ontario, one in Saskatchewan and now one is being started in Winnipeg.

THE SHOOTING SEASON

The shooting season for wild duck is now open and following closely on his will be the open season for prairie chicken and other protected game.

In the past we have been reminded of the opening of the shooting season not only by the number of hunters going out and game bags brought in, but also by the number of accidents which frequently happen at this time of year. Already this year we have read of accidents as a result of the careless handling of fire arms. Because of this we feel called upon once more to issue the word of warning to those who are prone to handle a gun in much the same manner as they would handle a knife and fork at a Sunday school picnic.

The first thing, therefore, that we would endeavor to impress upon hunters is that they should get the idea indelibly impressed upon their minds that a gun is "always" loaded, and handle it accordingly. It is invariably the gun that "I didn't know was

loaded" that does the damage. There are a number of things people should remember when they go shooting, or when they are handling a gun. First of all never point a gun at a person—supposing it is only a toy gun—and teach your children the same from the time they start to use the apparently harmless pistols.

Nobody but a fool or a crazy man will point a gun at another man whether it be to try his gun out as a joke. If you want to see whether or not a gun fits you try it on the sun, the moon or the stars. You can't hurt them very much. Never get into a rig or automobile with a loaded gun. If there is a man in the party who insists on doing so throw him out and let him walk home. Better to send a man home to his wife tired than a corpse. Remember that a gun was made to kill and that it will kill you or your friend just as surely as it will kill a prairie chicken, if you get in front of the business end of it and pull the trigger. Handle it, therefore, accordingly.

Another matter we would draw to the attention of shooters and that is that they exercise a little care and thoughtfulness when driving through a man's farm. See that you close all gates carefully after you and be very careful about where you throw your cigar stubs and matches.

John Ellis, one of the early settlers of this district, but who has now a fine ranch in the Box Springs district has been paying some little attention to what the soil and climate of this district will produce. In the garden around his country home he has not only a fine assortment of small fruit trees but he has a number of plum trees, two of which are heavily laden with fruit this year. It's a rare treat to stand under these trees and

pick some of this fruit and eat it, but to have some of them stewed and dished up to you for breakfast stimulates the inner and brings back fond memories of the past. We know what we're talking about for we had that experience yesterday. The wonder is that more of our farmers do not pay more attention to this branch of their work.

According to reports the soldiers who are now in training at Sarcee are to be sent across the pool soon. Among them are a number of boys from Redcliff. God bless you boys. Our hearts are with you. May you all come back safe and sound.

British Millions

Reach United States

Nearly \$20,000,000 in gold and securities worth about \$25,000,000, the second largest shipment sent from London to strengthen British credit in the United States, arrived in New York this week. The gold and securities were consigned to J. P. Morgan & Company for account of the British government and the shipment was deposited at the United States sub-treasury in Wall street. The first big shipment of gold and securities, received on August 12 last, included some \$19,200,000 in gold and \$30,000,000 in securities.

Hun Subs. Have

Been Taking a Rest

Since August 27, when one British merchantman was sunk by a German submarine, not a single attack by German submarines has been recorded by the British admiralty. It is conjectured in some quarters that the sudden cessation of activity by German submarines is the consequence of the recent German-American crisis over the sinking of the Arabic, the inference being that the German admiralty has instructed its submarine commanders to discontinue their attacks, or at least to confine their activity to the British merchantmen and fishing trawlers, pending the conclusion of a definite agreement between Germany and the United States.

Not Much Fighting

Says Sir John French

A report from Field Marshal Sir John French, commander-in-chief of the British army in the field, was given out by the British war office as follows:

"Since my last communication of August 18 there has been no fighting of our front, by record. There has been a certain amount of mining activity, but conditions generally have been normal."

"Both on the 18th and the 21st we succeeded in shooting down enemy aeroplanes. On the 25th our enemy artillery set fire to a railway train at Langemark station (about five miles north-west of Ypres). On the same evening our royal flying corps co-operated with our allies in an aerial attack on the forest of South Hurst, which was successfully carried out without the loss of any marching."

Will Supply Ships

To Move the Grain

Action is being taken by the British government to prevent the much dreaded backing up of wheat when the grain movement starts, according to reports received by the C. P. R. Ships, now in the Dardanelles or on military service in other places, are to be sent to Canadian ports to take the grain as it arrives and transport it to England. Vessels in Canadian ports may also be commandeered by the government to assist in this work if the rush is very heavy.

Great Gains by

Italians in Austria

A correspondent of the Daily Telegraph in the Aige Valley says:

"During the last eight days I have visited many places on the northwestern line between Austria, and Italy, and about 170 miles of the frontier mountain chain chosen by the Austrians."

"One is struck by the enormous advantage Italy has secured in this area."

"The Italian artillery has won territory of incalculable worth to the Austrians and Italy's position is immeasurably superior to what it was at the opening of the campaign."

"I have been full 10 kilometres into

what was Austria before the end of May and in other districts the advance has been quite as great."

The Prussian casualty lists, from number 302 to 309 gave the names of 4,384 killed, wounded and missing, according to the Neue Rotterdamische Courant. The total number of Prussian losses published up to August 24, amounts to 1,542,856 killed, wounded and missing, says the paper. To the above must be added the Bavarian casualty list, number 214, the Saxony list, number 194, the Wurtembergian list, number 247, and the naval list, number 44.

WARNING!

We respectfully request the co-operation of every citizen, in taking every precaution against prairie fires.

See that your children do not play with matches.

Do not carelessly throw lighted matcher or cigar stubs on the prairie

Severe penalties are attached to violation of regulations governing the starting of fires, and these will be rigorously enforced.

B. J. BOTT,
Mayor

General News Notes From Various Points

Fourteen officers and 22 wounded men of Canadian regiments arrived at Montreal Sunday on the steamer *Mississauga* from England. They were accompanied by physicians and nurses.

Over \$1,000 per ton is now being paid by the German government to householders and others who bring copper objects to the metal collecting depots. This compares with a price of \$360 per ton recently quoted on the London market for copper in bulk.

That Enver Pasha is plotting a massacre of all Christians in Constantinople is the assertion made in the *Gazette* by Enli Galli, former editor of the *Levant Herald*, who has just escaped from the Turkish capital.

News from the Canadian front shows that there have been no attacks for some time. Nevertheless casualties occur daily from sniping, trench shelling, and the Canadians are working night and day. Eight men were killed and 14 were wounded on September 1 in one day recently by shells dropping on the parapet of their trench.

Small discoveries in Cape Haytien, last Saturday, were reported by Rear Admiral Caperton. He gave no details, but said otherwise order prevailed, in all places under American control. The gunboat *Sacramento* will join Admiral Caperton's squadron within a day or so.

It is reported that partisan warfare, such as was so largely instrumental in causing disaster to Napoleon's grand army, has begun in several regions in the rear of the German advance. The Poles, admirable guerrilla fighters, are again winning distinction as such, notwithstanding the severity of German methods of repression.

While at a picnic on Canadian soil last Sunday, Charles Reese, of Detroit, for whom the authorities were searching in connection with the dynamite explosion at Walkerville, Ont., two months ago, was taken in custody on Bois Blanc island. It is charged that he was one of the persons who conspired to destroy the Peabody gravel plant at Walkerville, the Windsor armory and other buildings.

The selection of Frank L. Polk, corporation counsel of New York City, to be councillor of the state department, was formerly announced the first of the week by Secretary Lansing. The president has tendered the position to Mr. Polk, who has accepted. Mr. Polk will succeed Mr. Lansing, who became secretary on the resignation of Mr. W. J. Bryan last June. The councillor's office has been vacant since Mr. Lansing took his place in the cabinet.

Urges Blockade of Baltic by Allies

The Echo De Paris suggests that the Allies establish a submarine blockade in the Baltic, holding that the development of submarines renders the scheme feasible. "The result," said this paper, "would be the stoppage of Russian trade with Scandinavia, which would satisfy American objections, that the Allied blockade at present discriminates against that country, a depression of the German morale and a halt of the naval operations against Russia."

The writer appeals to the authorities to adopt the scheme if only to check the flood of supplies now reaching Germany through Scandinavian ports.

Equinox Storms Will Hinder Germans

Terrific storms are raging in Western Russia. Rain has swollen the rivers until they are out of their banks, and the marshes along the Pripiet river and tributaries of the Dniester and Bug are becoming impassable morasses. The Russian troops will be greater handicapped in their advance by the heavy rains, which are the beginning of the autumn storms. It is believed that the Austro-German armies will have to abandon their attempts to get artillery across the marshes, and that for several weeks the campaign will be waged with cavalry forces.

This will be to the advantage of the Russians, the Cossacks having proved their superiority over the Germans in every engagement which has occurred.

Canada to Send 50,000 More Men

With the return of Sir Robert Borden and Sir Sam Hughes to the capital it is expected that a new stimulus will be given to things political and military in Canada.

The minister of militia will probably have important plans for speeding up both the recruiting in Canada and the manufacture of war munitions. The authorized enlistment for overseas service provided for is now 160,000, and it is expected that with the return of Sir Robert and Sir Sam authority will be given for the total 200,000.

The heurtn to England shortly of Mr. Thomas, the British government's munitions emissary to this continent, will also be followed by the placing of additional orders in Canada for more shells and munitions of various kinds.

An early decision must be reached as to whether parliament is to be summoned, finances put in shape for continued administration of government, and the prosecution of the war under the Borden ministry, and the railway situation, with its financial complications dealt with, or whether a general election is to be first held.

SOME QUESTIONS, AND THEIR ANSWERS

W. M. Sharpe, M.P. Clears up the Price of Binders—Official Import Figures

Last March, Mr. W. M. Sharpe, M.P. for North Lanark, asked the following questions in the House of Commons with reference to the import of binders from the United States into Western Canada, and received the answers given below from the Minister of Customs.

The figures which are tabulated and compiled from Government records completely disprove the story that a well known United States implement concern circulated widely through Western Canada earlier in the year. What was the total importation of 7 and 8-foot binders from the United States in the year 1911, at the port of Winnipeg, and the average value on each duty was collected?

Number of harvesters, self-binding, all sizes, entered through port of Winnipeg, year 1911, 201. Total value, \$23,155.07. Average value, \$115.00 each. In the total number above stated are probably included harvesters smaller than 7 and 8-foot, but the number of each cannot be given from the records in the Customs Department, as inventories are retained in the department for only three years.

What was the total amount of duty collected on same, and the average amount per binder?

Total amount of duty collected on said binders, \$2,947.65; average, \$14.66 each.

What was the price of the International Harvester Company's 7 and 8-foot binders in the United States, as sold to dealers only, according to price lists in 1911 and 1914?

Selling prices of International Harvester Company's binders to dealers in the United States: 7-foot binder with bundle carrier without tongue truck, 1911, \$105; 1914, \$100.50. 8-foot binder with bundle carrier without tongue truck, 1911, \$107.50; 1914, \$105.

What was the total importation of 7 and 8-foot binders from the United States in the year 1914, at the port of Winnipeg, and the average value on which duty was collected?

Seven and eight-foot harvesters entered for consumption through the port of Winnipeg in the year 1914: total number 191, value, \$19,468 (including the value of the bundle carrier); average value as entered, \$100.34 each. Total duty collected thereon, \$2,518.07; average, \$13.04 each.

On what prices did the John Deere Plough Company pay duty on 7 and 8-foot binders at the port of Winnipeg in 1913?

Duty was paid by John Deere Plough Company, Winnipeg, on imported values during 1913: 7-foot binder with bundle carrier without tongue truck, \$75.22; 8-foot binder with bundle carrier without tongue truck, \$90.55.

Were these entries at customs made at prices below the fair market value of the binders, and in violation of the customs laws?

These entries by John Deere Plough Company, Winnipeg, were made at prices much below the fair market value for home consumption and were therefore in violation of the customs laws.

What was the selling price of these binders as sold to dealers only in the United States in 1913?

Selling prices to dealers of John Deere binders in the United States during 1913: 7-foot binder with bundle carrier without tongue truck, \$103; 8-foot binder with bundle carrier without tongue truck, \$105.50.

EMPLOYMENT AND WAGES

"Made-in-Canada" Provides Work For Working People

The "Made-in-Canada" movement today means more than business or profit for the Canadian manufacturer. It means employment for Canadian workpeople, who will spend their wages over the counters of Canadian stores to the advantage of Canadian merchants and Canadian business generally. It means traffic, both freight and passenger, for our railways, which again contributes to increased activity in all fields of Canadian commercial enterprise. It means a home market with good prices for what the farmer has to sell to the Canadian workman and his family. Ask the farmers around Winnipeg or Toronto, or Montreal, or Brandon what they think about this splendid market right at their doors.

Dr. Samuel Johnson defined patriotism as "the last refuge of a scoundrel." The man who sets his income from this country in a time of war and spends a good share of it in another is the last kind of scoundrel that could be considered a patriot.

REVIEW JOB DEPARTMENT

Is equipped to turn out all kinds of job work from the smallest to the biggest job. Give us a trial.

PEOPLE

If you have anything to sell let others know of it through the Review. It will get you buyers and keep the money which is going elsewhere in town

We are agents for 14 big, thoroughly reliable companies. One company is as good as another until a fire or other loss occurs. Then you want the best.

THE STONER AGENCIES

ITEMS OF LOCAL INTEREST

We can supply ANY school Text Book. Blundell's, Broadway.

Last Monday was the hottest day this summer so far. The mercury mounted to 87°.

Otto M. Shibley left last night for Hamilton, B. C. There he will spend a few weeks, visiting his parents.

Mr. Shibley's friends and Mr. and Mrs. F. B. Shibley left last Tuesday evening for Minneapolis.

See A. J. Nicholson for insurance of all kinds in the best companies.

Wm. Henderson, Sr., has been appointed an issuer of marriage licenses for Redcliff and district. Who will be Mr. Henderson's first customer. They say that Cupid has got several almost persuaded.

Mrs. H. Johnson and daughter, who has been visiting in Winnipeg for the past two weeks, returned home last Saturday evening.

Rev. H. C. Gibson, who has been visiting friends in the Maple Creek district for the past two weeks, returned home this week.

Some military men, in close touch with official opinion in Ottawa, stated that they are preparing for conscription in Canada not later than the New Year, following up the probable adoption of compulsory service in the old country.

Owing to the increasing demand for the Redcliff Club cigars, Mr. Rosin, the proprietor of the factory, has found it necessary to increase the staff. J. Sloan, an experienced cigar maker, of Ottawa, arrived last Monday evening and is now on the staff.

That a large number of farmers from the northern states will shortly come to western Canada to take up homesteads or to purchase land, according to their circumstances, is the opinion of J. L. Porto, an immigration agent employed by the city of Edmonton.

Fire guards are now being placed around the town as a precaution against the spreading of prairie fires. The council is acting wisely in taking every possible precaution in this direction.

The pen pusher for this sheet was stricken with a slight attack of hay fever for a few days this week, but this is only natural as he is in present a grass widower.

Mrs. Albert Graham, of Brooks, had the bone of her ankle badly shattered by the accidental discharge of a shotgun in the hands of her husband. She was taken to the Hot Springs for treatment.

Advance notices have reached town this week to the effect that James Kerry, a one time resident of Redcliff, would arrive here on Saturday morning's train to spend the Labor Day holiday here. We understand the young ladies are arranging a reception in his honor.

Messrs. L. W. Pierson, proprietor of the Daily Promoter, and O. C. Sheppard, both of Havre, Montana, were visitors in town this week. Mr. Pierson paid the Review office a visit and was greatly surprised to find we had such an up-to-date plant. He said it was one of the most modernly equipped weekly newspaper offices he had ever visited, in fact it was much better than many daily.

Blundell's for School Supplies.

When sending money to Europe buy a Dominion Express Foreign cheque. A. J. Nicholson sells them.

Davis Kerr is holding shares these days. Davis says: "Hot men but it's pleasant past time."

A. W. Woodcock leaves tomorrow morning for Calgary on business. His grandson, Bruce, will accompany him.

Mrs. Woodcock is spending the week with the Misses Hargrave at the ranch.

Messrs. Stuart and Lockwood are in Calgary this week on business.

J. Osborne, who at one time conducted a milk business here, but now of Calgary, was in town this week on business.

Ted Wilcher, who has been on the Redcliff Hotel staff for some time, leaves shortly for the old country.

D. F. R. Robertson is expected home Saturday evening of this week and may be seen at his store here at any time till Tuesday the 14th.

Those desiring to secure shooting licenses may get them at the Review office, as W. H. Hatcher has been appointed a game warden.

As next Monday will be Labor Day and a public holiday throughout the Dominion, all the stores in town will be closed.

Mrs. E. J. Crowe, who has been visiting in the east for the past few months, returned home last Sunday.

After spending two months visiting friends in Minneapolis and district, Mrs. E. L. Aultman returned home last Saturday evening.

Mr. and Mrs. Morrell and daughter left last week for the east where they will spend their summer holidays. They will visit Montreal, New York and other eastern cities.

Mrs. E. D. Bentley and Roy McClure, and his little daughter, of Medicine Hat, spent Friday at the Manns, the guests of Mrs. Gordon.

A city lot in Cleveland, Ohio, was traded 60 years ago for a negro slave. Today the lot, without improvements, is valued at \$1,000,000. The negro, at his birth, was worth \$1,000.

Messrs. T. Huntley, W. Cowell, W. Waters, T. Hotell and O. Chastanham, all Redcliff boys who are in training at Sarsce Camp, arrived in Redcliff this week and intend spending a few days here.

Alex. D. Dentman, bookkeeper at the Denver Agency office, was married in Medicine Hat last Wednesday by Miss Brandt. They left for Banff where they will spend a few days before returning to Redcliff to reside.

Work is now almost completed on the new farmers' elevator here and it will be in shape to handle grain next week. There is every indication that the elevator will be well patronized by the farmers of this district.

Mrs. R. Wray, who has been in the Medicine Hat Hospital for the past three weeks, and while there underwent a serious operation, returned home last Tuesday. She is feeling much improved in health and the operation, which was performed by Dr. Smyth, was most successful.

This is some rain all right but not so scarce, it's just what the country needs. It may put you a few days further away from that thousand dollars but don't worry. Worry sometimes kills people. Let the other fellow worry.

L. Rosin's two story building on Sixth street, which was damaged by the cyclone is now being repaired and when completed will be used as a cigar factory for the making of the new popular Redcliff Club cigars. During the coming fall and winter it is the intention of Mr. Rosin to add several more cigar makers to his staff, as he finds there is a growing demand for his goods.

The duck shooting season opened in Alberta last Wednesday and quite a number from here took in the first day's shoot. Owing to the great amount of rain last spring and summer seasons are more numerous and as a result ducks are more plentiful than usual. Although a number of good bags have been brought to town in the last few days we have not heard of any one who exceeded the limit. There are also large flocks of geese in the district but they are evidently too shy for the hunters around here as none have as yet been brought to town.

Moving pictures of Medicine Hat are being taken this week.

A. J. Nicholson sells steamship tickets of all lines. See him before booking your passage to Europe.

WANTED—To buy two small shacks suitable for granaries. Apply Jas. A. Sturtevant, Howell.

CHURCH NOTICES

THE PRESBYTERIAN CHURCH.
Next Sabbath is "Labor Sunday," and both services will have reference to matters of importance to the working and capitalist classes. At 11 o'clock forenoon the subject of discourse will be "The Ideal State" in the evening at 7:30 the subject of discourse will be "What Religion Has Done for Labor."

Sabbath school meets in the church at 2:15, and in the northwest school at 3.

Services at Brezeland at 8 p. m. The choir meets on Tuesday evening at 8.

Prayer service is held on Wednesday evening at 8. Next week a study of Prophecy and its relation to the present war will be begun. Every Christian should strive to see with Bible eyes the wonderful events of our time.

On Friday the Presbytery of Medicine Hat meets in the church here at half past ten in the forenoon. There will also be an afternoon session beginning, probably, at 2. The meetings are for business and conference, and are open to all.

CHURCH OF ENGLAND.
Sunday next (Sept. 5) Holy communion at 11. Sunday school at 2:30. Evening at 7:30.

Friday: Evening song and intercession for the war at 7:30. Choir practice at 8 p. m.

BAPTIST CHURCH.
Reid's Hall.
Sunday, Sept. 13: Sunday school at 10 a. m.; morning service at 11, subject, "Happy? If Not, Why Not?" Evening service at 7:30, subject, "The Church and the State."

Tuesday at 8 p. m., prayer and praise.
Friday at 8 p. m., choir practice.
All are invited to these services.

THE UNION BIBLE CLASS.
Here is a subject that will interest you: "Elijah's Flight and Return," the 19th chapter of First Kings. Look it up and come to the class in the Presbyterian church at 8:30 on Sunday.

Voice and Hearing Restored at Show
Robert Beck, of Chicago, who was made deaf and dumb by an injury sustained while fighting with the British army, suddenly recovered his speech and hearing last Tuesday. From the day of his injury he had been unable to hear or speak until he was taken with other convalescents to a moving picture entertainment in Liverpool. While watching a picture he suddenly burst into laughter. The next moment he found that he was able to talk and hear normally. Beck, who was a motorcycle policeman on the Chicago force when the war began, became a dispatch bearer with the British troops, and was struck down by a sniper's bullet in Flanders.

FALL MILLINERY OPENING
The Ladies of Redcliff are cordially invited to attend and inspect our Fall Millinery, which is now on display. We recommend to give you the best selection as well as satisfaction in price.

While you are in Medicine Hat visit our Millinery Parlors, at 625 Second street.

IDA J. BAKER
(Near to Monarch Theatre.)

Japan Will Assist Allies to Finish
What appears to be an intimation that Japan may co-operate in the campaign to force the German fleet to come out in an interview with Baron Hayashi, Japanese ambassador to Italy, sent to the Petit Parisien by its Rome correspondent.

"I cannot say much about that," the baron is quoted, as having said in reference to a question regarding the Dardanelles.

"For we must not allow our enemies to profit by information about the movement of troops."

Discussing the part Japan has played in the war, the ambassador said: "We have not ceased to collaborate with our Allies to the extent assigned to us. The world will be astonished when it knows what we have done, what we are doing and what we are willing to do. The Russians are nearest to us and we can be most useful to them. But assuredly it is the greatest desire of Japan to assist in the sacred cause of civilization."

Red Cross Society to Open Schools
A school for soldiers who have lost their sight in the war. The subjects taught are Braille reading, writing and typewriting, basketry, book repairing and basket making, massage and telephone operating, as well as poultry farming and meat marketing.

The average duration of training is six months and an effort will be made to give the blind soldiers a good start in life. The Canadian Red Cross is considering plans for a similar work in Canada.

One of the outstanding features of the Red Cross summer campaign in Canada has been the steady increase of contributions both in supplies and money. The Red Cross executive, through the chairman, Mr. Noel Marshall, expressed great satisfaction with this result. This Red Cross activity is not confined to any section but is general, being as noticeable in Saskatchewan and British Columbia as in the Maritime provinces.

Making Progress
At The Dardanelles
Sir Ian Hamilton, commander-in-chief of the allied forces, reports on the Gallipoli peninsula, according to some recent operations in the Franco-British effort to open the Dardanelles.

Some head to head fighting on August 27 and 28, Sir Ian said, resulted in further progress. An important tactical point commanding the Bosphorus Valley has been captured, the fleet constituting a considerable forward step. The Australian forces have also made "an appreciable gain of ground." Very heavy losses inflicted on the Turks.

REDCLIFF PEOPLE PRAISE SIMPLE MIXTURE
Many in Redcliff praise the simple mixture of buckhorn bark, glycerine, etc., known as Adler's Liniment. This remedy is the most THOROUGH bowel cleanser ever sold, being even used successfully in appendicitis. ONE SPOONFUL of the medicine, followed by CASES of constipation, sour or gassy stomach. ONE MINUTE after you take it the gases rumble and pass up. Adler's Liniment cannot gripe and the INSTANT action is surprising. C. T. HALL, Druggist.

Japan Will Assist Allies to Finish

Good Winter Quarters For Canadian Soldiers
A report from Ottawa says: Men training in Canada will be housed this winter, as they were last winter, in armories, drill halls, exhibition buildings and other large structures throughout the country.

There is no intension of sheltering them in huts and tents for the winter at the various training camps where they spent the summer.

The plan of centralization in cities is regarded as the most effective way of wintering troops in Canada. The equipment of bunks and stoves, used last winter, is still available, and will be serviceable for another winter.

Men gathered in cities can be given training as effectively as if they were in remote training camps. The men have had effective training this summer in the nine military camps of Canada, and many battalions having qualified for service will cross the Atlantic before vigorous weather sets in and compels the troops to retreat from their summer camps.

The French, by sharp actions in the Vosges, in which they have overcome numerous obstacles, have straightened out their front, north of Soudier, and are believed to be about ready for their final operations. The Munster and the lower Moselle valley.

The Russians thus far have prevented the Germans and Austrians from carrying out their efforts to force back the two extreme wings of the armies of grand Duke Nicholas.

One of the outstanding features of the Red Cross summer campaign in Canada has been the steady increase of contributions both in supplies and money. The Red Cross executive, through the chairman, Mr. Noel Marshall, expressed great satisfaction with this result.

This Red Cross activity is not confined to any section but is general, being as noticeable in Saskatchewan and British Columbia as in the Maritime provinces.
